We hope you have had an enjoyable summer and welcome back to the University of Massachusetts Dartmouth. At the room selection process in the Spring and Summer Orientation, all residential students had the opportunity to complete an application for a parking permit. Due to the large demand for parking in our residential lots, we have reached our capacity for parking. As a result, space at this time is very limited, creating the need to design a process that accommodates all on-campus parking requests.

Given this, we would personally like to take the time to explain the current assignment process for students who will receive a temporary parking permit.

1. At this point in the summer our residential parking lots are fully occupied and you will be issued a temporary parking permit to park in non-residential lots. Permanent residential parking permits will be issued to waitlisted students when space becomes available.
2. These temporary parking permits will be clearly identified and tracked. Once a residential parking permit becomes available we will contact you (via mail and/or by phone), collect your temporary permit and issue you a permanent residential permit.
3. You need to pick up your temporary permit at one of the following Distribution Locations
