

Calculation of the GPA in the Electrical Engineering Major

Students must have a 2.000 cumulative grade point average (GPA) for all courses taken at the University in order to graduate. Students must also have a 2.000 cumulative GPA in the major. For purposes of this computation,

1. All courses with an ECE prefix except ECE 298, ECE 400, ECE 401, ECE 402, ECE 495, or ECE 595 count in calculating the GPA for the Electrical Engineering major.
2. Courses required for the major but taken outside the major discipline are not counted in the calculation of the major cumulative GPA.
3. As is the case for all University courses, only the most recently earned course grade (whether higher or lower) shall enter in the calculation of the major cumulative GPA.
