

## **How to set a Pull In Password Script for Webcast Demo**

**To enter the online room selection website click on select a room or set a pull in password.**

**In order to log in you must use your COIN username and COIN password and the UMS must be capitalized.**

**Once logged in you will see the welcome screen. Please note the reminders section for any updates to room selection.**

**On the left, you will see 3 links. The second link is where you must go to set a pull in password if you plan to be pulled in by someone who has a better lottery number.**

**They can pull you into the Woodland apartments, Cedar Dell apartments, a double or a triple room.**

**The pull in password is case sensitive and must be one word.**

**Click continue when finished.**

**You will then want to hand this password and your COIN username over to the person pulling you in during room selection.**
