Research Assistantship Supports for Ph.D. Students

Positions of research assistants (stipend + paid tuition) for graduate students are available, starting at Spring and Fall 2010.

I am seeking for multiple qualified and self-motivated graduate students who have background in at least one of the following areas: wireless communications and networks, multimedia communications, sensor networks, image processing, biomedical computing, optimization and pattern recognition, starting from Spring or Fall 2010. For those who are interested, please send me a copy of your resume, transcripts, publication list, and other closely related credentials at “hwang1 AT umassd.edu.

GRE and TOFEL are needed for admission;

Please apply: http://www.umassd.edu/graduate/. Your submitted materials will be forwarded to the department after they are complete at the graduate school.

Biography:
Honggang Wang is an Assistant Professor in Electrical and Computer Engineering department, College of Engineering University of Massachusetts, Dartmouth (www.umassd.edu). He received his Ph.D. in Computer Engineering at University of Nebraska-Lincoln in 2009. He worked for Bell Labs Lucent Technologies China from 2001 to 2004 as a Member of Technical Staff I. His research interests include networking, wireless sensor networks, multimedia communication, networks and information security, software engineering and programming, embedded sensory system, biomedical computing, and pattern recognition. He has published more than 40 papers in his research areas. He is the winner of the Best Paper Award of the 2008 IEEE Wireless Communications and Networking Conference.
