Plus:
* 9 units of Mathematics electives , which include all upper level mathematics classes. Recommended courses are Optimization (MTH474), HPC (EAS520), PDEs (MTH471), Probability (MTH331) and Mathematical Statistics (MTH332), Advanced Calculus I and II (MTH311 & MTH312), and Complex Analysis (MTH421).
** 6 units of Science electives must be in addition to PHY113 & 114, and must be at the level taken by majors. CHM155/156, BIO121/122, PHY115/213, MLS115/121 are acceptable science electives.
*** 3 units of Technical electives , which may include any major level class in Computer science, Physics, or Engineering (CIS 115, CIS 215, CIS180, or CIS261 can be used).
Students must take 6 units of literature (US 3A) and 18 units of Humanities and Social Science (at least 6 of each and no more than 6 in one department).
At the discretion of the Mathematics Department Chair, the requirements 5A & 5B in the mathematics department can be substituted with courses fulfilling 5A & 5B in other disciplines.
Students must earn a grade of C or higher in each mathematics course which is counted toward the completion of mathematics requirements of the major.
Students must complete the total of 30 units at the 300 level or higher . Mathematics electives, Technical electives, and Science & Engineering electives count here, too.
Students must satisfy the University Studies requirements. Some Science, Literature, Humanities, and Social Sciences courses also satisfy University Studies requirements. Details are at the University Studies Site : http://www.umassd.edu/universitystudies/
