Set Up Microsoft Remote Desktop on Windows

You may wish to use accessories such as a drawing tablet or external USB storage when using Corsair Desktop. Unfortunately these devices are not supported by a web browser connection. You can set up remote desktop protocol (RDP) client software to overcome this limitation.

This document explains how to install the Microsoft Remote Desktop application. The pictures were taken using Windows 10 and Firefox 70. Your computer may appear differently.

Make sure that you have a stable internet connection before you download Remote Desktop. If you have questions or need help with this procedure, please use our online help form at <u>https://ithelp.umassd.edu</u> or call 508-999-8900, and select option 5.

- 1. Open a web browser, and visit the Microsoft Azure virtual desktop website at https://docs.microsoft.com/en-us/azure/virtual-desktop/connect-windows-7-and-10
- 2. Click the **Windows 64-bit** link in the middle of the page.
- 3. A download dialog box is displayed.

Opening RemoteDesktop_1.2.247.msi		×		
You have chosen to open:				
🕵 RemoteDesktop_1.2.247.msi				
which is: Windows Installer Package (13.2 MB) from: https://query.prod.cms.rt.microsoft.com
