

Installation and use of the UMass Dartmouth VPN Client

This document will help you install and use the Check Point UMass Dartmouth VPN Client for Macintosh machines.

Note that the images were taken with macOS 10.12.5 Sierra, so if you are using a different version of macOS, your screen may appear differently.

Installation of the UMass Dartmouth VPN Client

1. Once you have downloaded the installer from the download site, locate and doubleclick on the installer package named "endpointsecurityvpnforumassdartmouth.pkg" to begin the installation process.

	ownloads
