

## How to forget Eduroam on Windows 10

1. Click on your network icon located toward the bottom right of your taskbar.

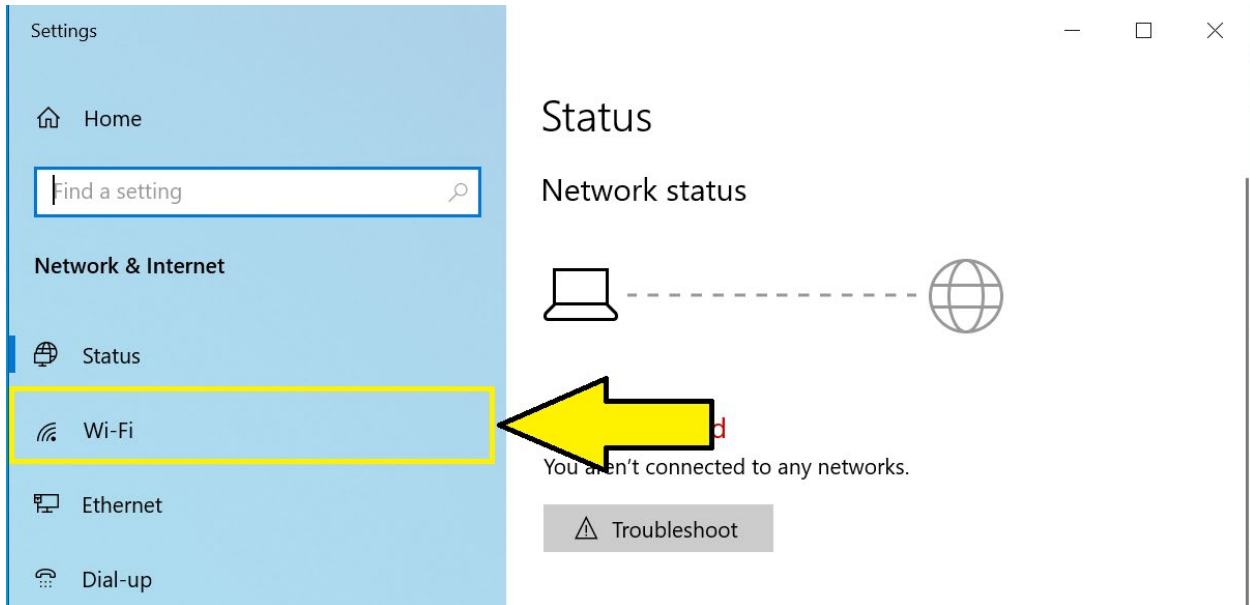

2. From the resulting pop up menu, click on the label “Network & Internet Settings” towards the bottom.

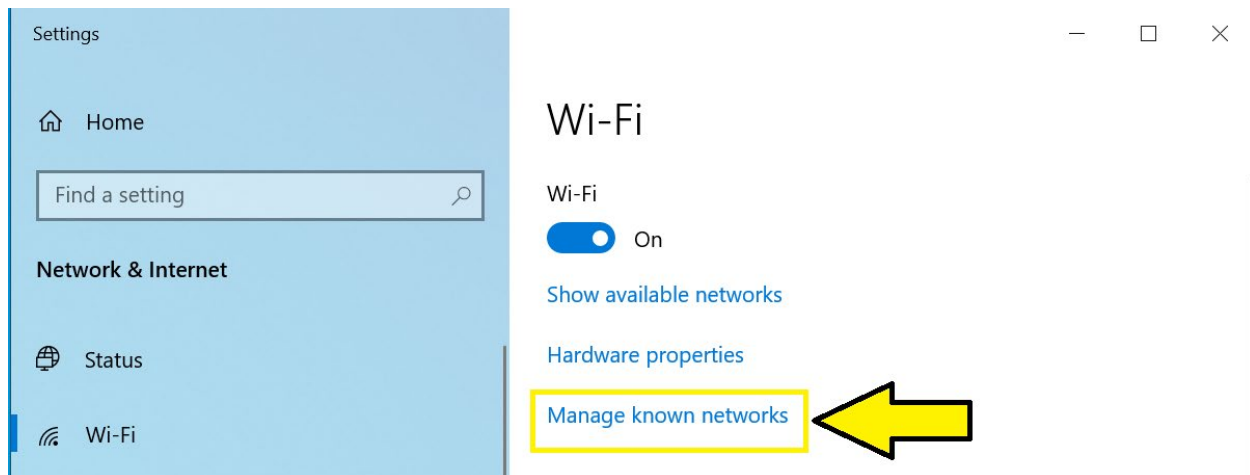

3. From the Settings page that appears, click on the “Wi-fi” category on the left ribbon.

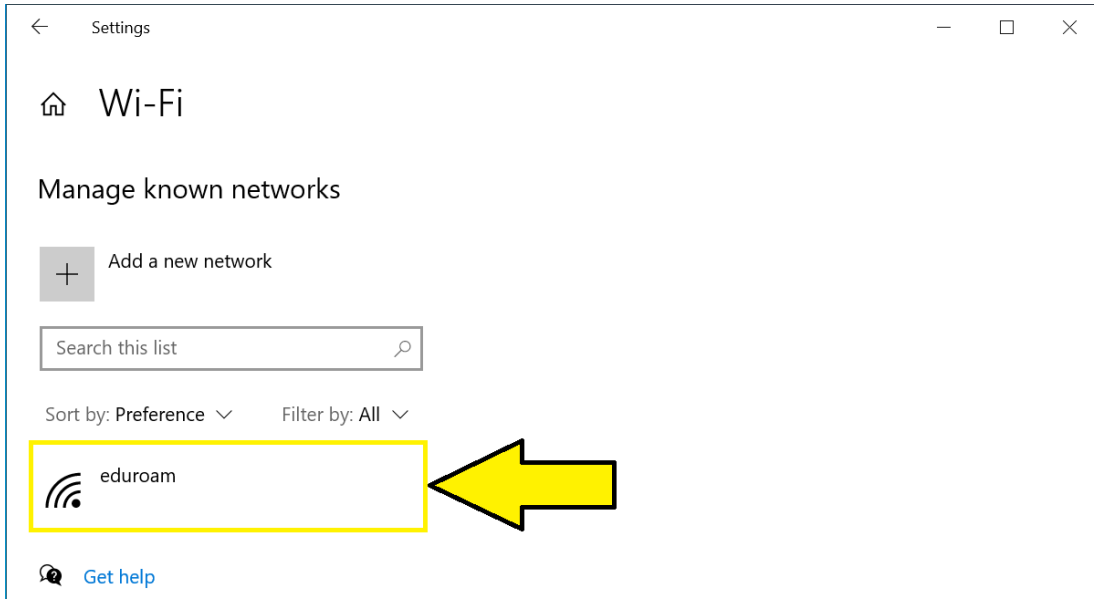

4. From the resulting menu on the right, click on “Manage Known Networks.”

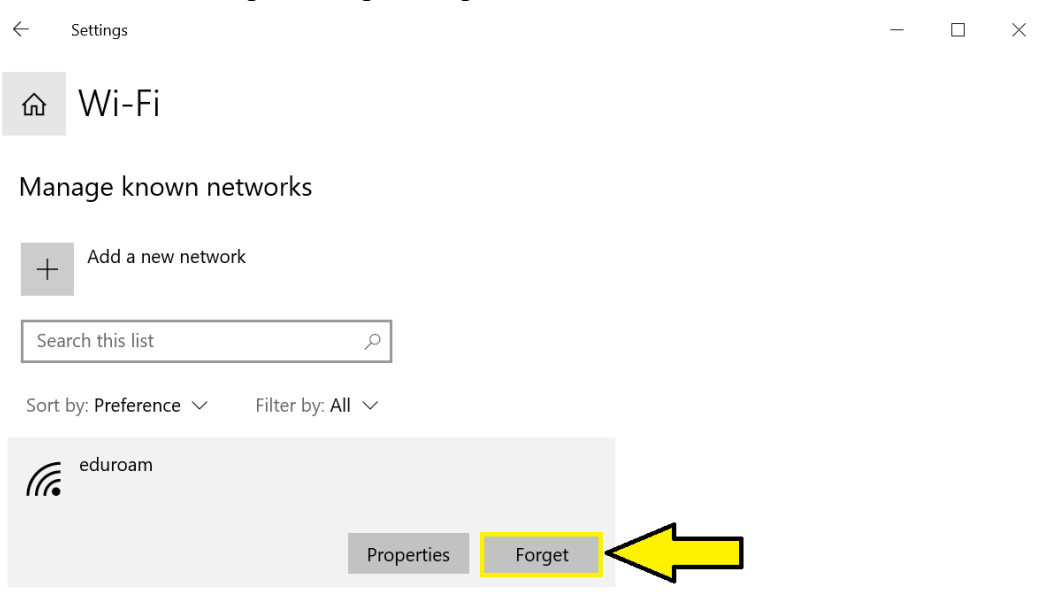

5. Locate “eduroam” among the list of wireless networks that appear and click on it.

6. After clicking on “eduroam” click on the button labeled “Forget” to ultimately forget eduroam on your machine. If more than one network appears with the label “eduroam”, please repeat steps 5-6 for each instance.

7. **Reboot your machine** for the changes to take effect.
