Configuring your Windows 11 computer to use the Eduroam wireless network

1. Click on the network icon on the bottom of left of your taskbar, located near the time/date.

2. Click on the arrow to the right of your wireless button.
3. From the resulting menu, click on “eduroam”

4. Once clicked, click on the “Connect” button that appears
5. When prompted, use your full UMassD email and email password as credentials for eduroam.

6. Once eduroam is listed as connected, you are now fully connected to the eduroam wi-fi.
