

URIP Application Form

Please submit one application per employment term (fall, spring and summer) at the end of the term or when all student hires have been determined for the term. Faculty will process student hires as is their usual procedure for student employment. Application does facilitate student hiring/payroll enrollment.

Faculty will provide 100% of the support for salaries for all hires. The Dean’s office will provide URIP acknowledgement in funds to the faculty "Indirect Cost Other" account upon completion of terms of employment and requirements. The amount of support from the Dean's office will be either 50% of the total compensation paid to the student, or the equivalent of 5 hours per week of compensation for 12 weeks (60 hours total compensation), whichever is less. The funds will be deposited from the Dean’s office into the Research Support Account (the F&A return account) of the faculty member who funded the hire. Allowable periods of employment for this program include fall semester, spring semester and summer.

Qualifications for support include:

(Faculty approved research report is due by the last day of employment. **Reports received beyond 14 days past this date will not be accepted and support will be forfeited.**)

- Maximum hourly wage \$16.50
- Minimum student GPA of 3.0
- Completed faculty application form
- Student’s completed and accepted end of term research report
- Student supported on extramural funds (sponsored projects, including MUST or PI Indirect)

Submit application to Vicki Vital @ v vital@umassd.edu
