

Undergraduate Research Incentive Program Report Form

At the completion of each semester, students who participated in the College of Engineering's Undergraduate Research Incentive Program (URIP), must submit a report on their activities using this form. The report must be reviewed and approved by the student's research advisor. The report should be written in a professional style and be free of grammatical, spelling and other errors. **The approved report is due by the last date of employment; reports received later than 14 days after term of employment will not be accepted.**
