

## SPRING 2018 CAP AND GOWN SURVEY AY 2017-2018 Undergraduate & Graduate Degree Earners

### Key Findings:

- When surveyed just prior to spring 2018 commencement, about 47% of both undergraduate degree earners (46.8%) and graduate degree earners (49.1%) had secured a job for after graduation.
- The full-time employment rate leading up to graduation was 32.9% for undergraduate degree earners and 46.5% for graduate degree earners.\*
- 11.0% of undergraduate degree earners and 10.4% of graduate degree earners reported that they had applied and been accepted to graduate or professional school.

### THE SURVEY

During April and May 2018, undergraduate and graduate students, who were completing their degrees during the 2017-2018 academic year (AY), participated in a survey about their employment and educational plans following graduation (note: Law students were excluded because the Law School has specific standards for collecting these data). Graduating students were asked to participate in the online survey at computer kiosks at the campus bookstore during cap and gown pick up for graduation. Students were also able to complete the survey online either in the week prior to or in the two weeks following cap and gown pickup. Overall, 710 confirmed undergraduate degree earners responded to the survey (an approximate 52.1% response rate) and 163 confirmed graduate degree earners responded to the survey (an approximate 28.6% response rate). This brief details the principal findings from the survey (note: responses are based on the number of degree earners responding to the relevant survey items).
