### **Enrollment and Admissions Data Book: Spring 2012**

### **General Notes**

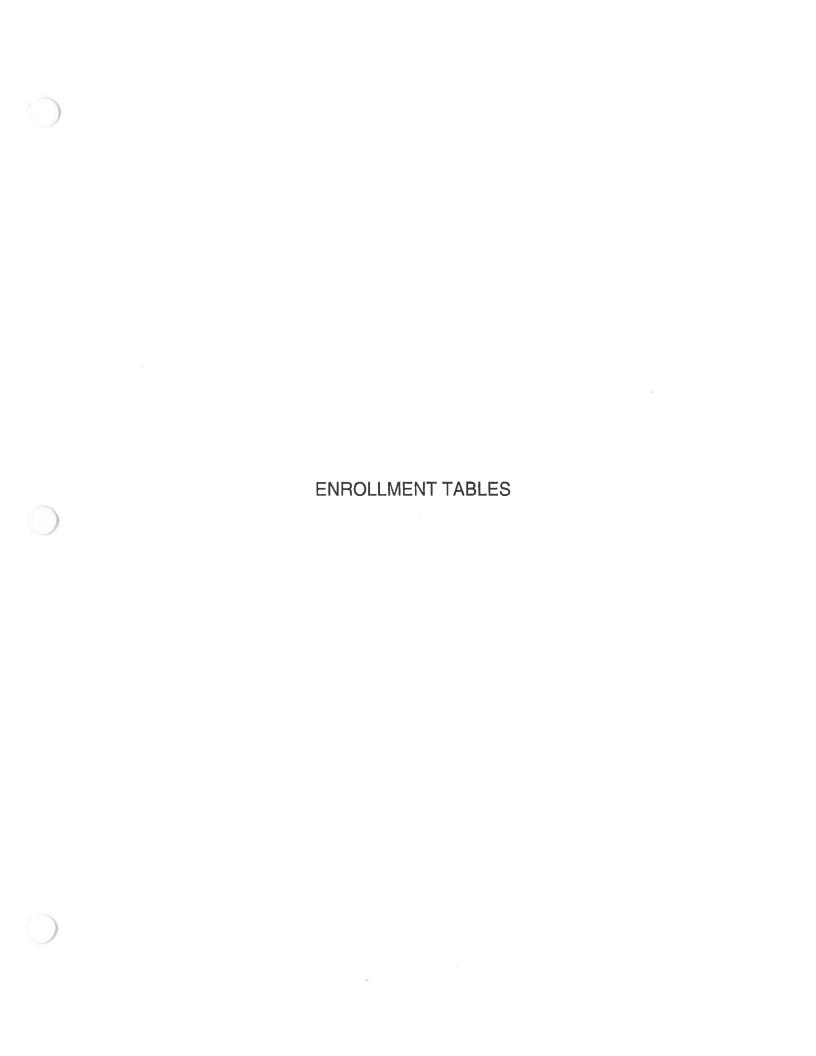

- The Spring 2012 data are based on the UMass Dartmouth computer database census files. The
  Office of Institutional Research then extracts these files and uses them for standard internal and
  external reporting purposes.
- The enrollment data count current students registered for more than zero courses.
- The PCE enrollment data are for credit courses only. PCE has additional students who are taking non-credit courses shown on a separate table.

#### **Definitions**

- SCH represents Student Credit Hours attempted for the semester.
- FTE represents Full-Time Equivalency, which is calculated from student credit hours (SCH); for undergraduates 15 SCHs are equal to 1 FTE and for graduates 9 SCHs are equal to 1 FTE. An undergraduate student registered for one 3-credit course has 3 SCHs, which is equivalent to 0.2 FTE, and a graduate student registered for 3 SCHs is equivalent to 0.33 FTE.
- Full-Time/Part-Time status is calculated on credits attempted; full-time undergraduates are taking 12 or more credits and full-time graduates are taking 9 or more credits.
- Unduplicated Total removes double counting of students enrolled both in Day and PCE.
- Counting Majors compared to Counting Enrollment: counting of majors is now being done from the
  unduplicated datafile and gives the number of students in the whole university who are majoring in
  specific programs; Day and PCE enrollment counts by college give the number of students from a
  specific program who are currently enrolled in courses offered via Day/PCE delivery. These different
  perspectives explain the differences in numbers when looking at major counts as compared to
  enrollment counts.

#### **Acknowledgments**

- The Office of Institutional Research extends its appreciation to the offices that gather and input the data that becomes the basis of IR reports. For this data book, these offices include the Admissions, Registrar's, and PCE Offices.
- Renee Trial, Staff Associate for Office of Institutional Research contributed to producing this data book.

HC = Headcount

FTE = Full-Time Equivalency
University Total HC is unduplicated.
Graduate Day FTEs include students enrolled for Thesis project completion, counted as if 3 credit course.

Enr Table 2 Spring 2012

New other Freshmen, Sophomores, Juniors, or Seniors are incoming Transfer students, with class levels determined by amount of transfer credit accepted.

Continuing Students counts include Study Abroad or Co-operative Education Work Session students.

The number for new students may not exactly match admission because some Day admits took only PCE classes and some PCE admits took only Day classes.

BioMedical Engineering/Biotechnology student counts are In the following areas: 13 Biology, 4 Chemistry, 4 Medical Laboratory Science, 2 Electrical/Computer Engineering, 2 Mechanical Engineering and 2 Material & Textile Sciences.

Shown are counts of students in declared majors registered in Spring 2012.

Students with double majors are counted twice (count = 143).

Non-degree-seeking students are not shown.

<sup>&</sup>quot;Course Enrollment" counts each registration in a class as "one" without regard to number of credits.

Excludes PCE enrollment

<sup>\*</sup>Adjusted average excludes individualized sections
Individualized sections are determined as any section with 1, 2, or 3 students enrolled in it.

Cross-listed courses are counted as Individual sections and no adjustments were made for team taught sections.
