## Spring Enrollment and Admissions Data Book: Spring 2000

### General Notes

- The Spring 2000 data are based on the UMass Dartmouth computer database census files; these files were “frozen” in time by the ITSS Information Systems office. The Office of Institutional Research then extracts these files and uses them for standard internal and external reporting purposes.
- The enrollment data count current students registered for at least one credit-bearing course who have not withdraw from the university prior to the start of the academic year.
- The DCE enrollment data are for credit courses only. DCE has additional students who are taking non-credit courses, which are shown in the course enrollment table only.
- The Spring Data book shows a year-round admissions view in Tables 1B, 2B, and 3B, by combining Fall and Spring admissions counts.

### Definitions

- SCH represents Student Credit Hours attempted for the semester.
- FTE represents Full-Time-Equivalency, which is calculated from student credit hours (SCH); for undergraduates 15 SCHs are equal to 1 FTE and for graduates 9 SCHs is equal to 1 FTE. An undergraduate registered for one 3-credit course has 3 SCHs, which is equivalent to 0.2 FTE, and a graduate registered for 3 SCHs is equivalent to 0.33 FTE.
- Full-Time/Part-Time status is calculated on credits attempted; full-time undergraduates are registered for 12 or more credits; Full-time graduates are registered for 9 or more credits.
- Unduplicated Total removes double counting of students enrolled both in Day and DCE.
- Counting Majors compared to Counting Enrollment: counting of majors is now being done from the unduplicated datafile and gives the number of students in the whole university who are majoring in specific programs; Day and DCE enrollment counts by college give the number of students from a specific program who are currently enrolled in Day/DCE. These different perspectives explain the differences in numbers when looking at major counts as compared to enrollment counts.

### Acknowledgments

- The Office of Institutional Research extends its appreciation to the offices that work in coordination with us insuring that the data is complete and accurate. These offices include Undergraduate and Graduate Admissions, Registrar, Division of Continuing Education, and ITSS.
- A special thanks to Graduate Research Assistant Heather Sue Roscoe for her work on this data book.

HC = Headcount

FTE = Full-Time Equivalency

University Total HC is unduplicated.

Graduate Day FTEs include students enrolled for Thesis/project completion, counted as if 3 credit course.

Fall 1993 Undergraduate and graduate figures are estimated from class registration due to 353 special students classified under a single category.

The Unduplicating process identifies students as Day or DCE by their current admission status.

Shown are counts of students in declared majors registered in Spring 2000.

Students with double majors are counted twice (count = 97). Non-degree special students are not shown.

\*\*Electrical and Mechanical Engineering Technology — closed as "day" major but continuing in DCE.

\*Manufacturing Management Textiles changed to Textile Science.

†Textile majors moved from College of Business to College of Engineering.

This table shows degree students by major from Day and DCE, but only counts a student once if they take classes in both.

Shown are counts of students in declared majors registered in Spring 2000.

Students with double majors are counted twice (count = 97). Non-degree special students are not shown.

\*\*Electrical and Mechanical Engineering Technology — closed as "day" majors but continuing in DCE.

\*Manufacturing Management Textiles changed to Textile Sciences.

†Textile majors moved from College of Business to College of Engineering.

\*Course Enrollment\* counts each registration in a class as "one" without regard to number of credits.

Excludes DCE enrollment

\*Adjusted average excludes individualized sections.

Individualized sections are determined as any section with 1, 2, or 3 students enrolled in it.

Adjustments made for special graduate programs.
