Enrollment and Admissions Data Book: Spring 2006

General Notes

- The Spring 2006 data are based on the UMass Dartmouth computer database census files. The Office of Institutional Research then extracts these files and uses them for standard internal and external reporting purposes.
- The enrollment data count current students registered for more than zero courses.
- The PCE enrollment data are for credit courses only. PCE has additional students who are taking non-credit courses shown on a separate table.

Definitions

- SCH represents Student Credit Hours attempted for the semester.
- FTE represents Full-Time Equivalency, which is calculated from student credit hours (SCH); for undergraduates 15 SCHs are equal to 1 FTE and for graduates 9 SCHs are equal to 1 FTE. An undergraduate registered for one 3-credit course has 3 SCHs, which is equivalent to 0.2 FTE, and a graduate registered for 3 SCHs is equivalent to 0.33 FTE.
- Full-Time/Part-Time status is calculated on credits attempted; full-time undergraduates are taking 12 or more credits and full-time graduates are taking 9 or more credits.
- Unduplicated Total removes double counting of students enrolled both in Day and PCE.
- Counting Majors compared to Counting Enrollment: counting of majors is now being done from the unduplicated datafile and gives the number of students in the whole university who are majoring in specific programs; Day and PCE enrollment counts by college give the number of students from a specific program who are currently enrolled in Day/PCE. These different perspectives explain the differences in numbers when looking at major counts as compared to enrollment counts.

Acknowledgments

- The Office of Institutional Research extends its appreciation to the offices that gather and input the data that becomes the basis of IR reports. For this data book, these offices include the Admissions, Registrar's, and PCE Offices.

Summary Table: Unduplicated Majors by College and Department

Due to the changeover to PeopleSoft, this table will not be produced. We have decided to remove this table from the spring databooks. It will remain as a table in the Fall databooks.

We will also be experimenting with an option table that will hopefully be available beginning Fall 2006 or Spring 2007.

Thank you for your patience during this transition period.
