A UMass Dartmouth liberal arts education prepares you for careers yet to be imagined, using technology not yet invented, to solve problems yet to be defined.

Involvement in class goes beyond raising your hand—it raises your creativity.

College of Arts & Sciences

Pursuing a major in the College of Arts & Sciences (CAS) broadens your knowledge base, refines your ability to analyze information and develop creative solutions, and prepares you to effectively communicate your ideas. It is a recipe for success.

Students examine molecular structures using an X-ray diffractometer, the only instrument of its kind in southeastern Massachusetts.

32
Areas of study

2,800
Arts & Sciences undergraduates

Our 16:1 student-faculty ratio provides opportunities for small group discussions.

Invent your future

CAS offers numerous opportunities to gain practical experience and build your résumé. Hundreds of internship experiences are available through the UMassD Career Center, and the staff there work closely with students to prepare them to pursue these openings. Internships often lead to job offers after graduation.

UMassD professors offer undergraduate research positions that enable students to publish their work in academic journals, present at professional conferences, and enroll at the finest graduate schools in the country.

I left UMass Dartmouth a well-rounded student, and secured a job even before graduation. I conducted my own research with UMassD's professors. They helped me secure internships at UMass Medical and Brown University. Now, working at the Broad Institute of MIT and Harvard, I use the same equipment I used in my UMassD classrooms."

Biology Professor Nancy O'Connor and her students collect specimens in a coastal marshland area.

Businesses of all sizes and in all fields need college graduates who possess both insightful knowledge and hands-on experience. The Charlton College of Business prepares you to be that professional.

Charlton College of
Business

Charlton is accredited by the Association to Advance Collegiate Schools of Business, a distinction given only to the nation's most prestigious business colleges.

Our rigorous curriculum and comprehensive internship program enable you to contribute your talents in any business sector, nonprofit organization, or government agency upon graduation.

At the DECA 2018 International Career Development Conference in Washington, DC, Charlton students placed first overall and in the Top 10 in Online Marketing Strategy as well as in the Top 10 in Business Ethics.

14

Areas of study

1,400

Business undergraduates

7

Business-related student organizations

Charlton professors bring their practical knowledge into the classroom.

Invent your future

At Charlton, career preparation begins your first year. You complete assignments that are designed to build your career portfolio. Throughout your college experience, you participate in workshops, networking events, and individual coaching sessions. Our goal is to help you land a great internship and, ultimately, a great job.

UMassD supports your ambitions outside the classroom. You might join our national award-winning DECA chapter or participate in a project with the Center for Marketing Research. You'll build skills and contribute to the broader community.

Graduate degrees

Charlton offers an MBA as well as MS degrees in Accounting, Finance, Healthcare Management, and Technology Management.

Contribute your talents in any business sector

UMassD has given me the tools and resources to grow and strengthen my knowledge of accounting. I was chosen out of 530 applicants into a highly competitive internship program with financial advisors."

Your engineering courses will be dynamic and practical. You'll participate in team activities, projects, and assignments. You'll conduct experiments, collect data, and analyze information as you learn engineering from the ground up with professors who are on the cutting edge of research.

15

Areas of study

1,300

Engineering undergraduates

\$13M

Current research funding

Dr. Gaurav Khanna and his physics students harnessed the processing power of 176 Sony Playstation 3 game systems to study black holes, gravitational waves, and other research areas.

In your first year, a specially designed course immerses you in multidisciplinary engineering activities that have you working in teams and gaining hands-on experience. In your senior year, a capstone project will enable you to demonstrate your engineering knowledge and skills with a team of your peers and a professional organization facing real-life challenges.

Invent your future

UMass Dartmouth engineering students are actively recruited for internships with leading companies throughout the Commonwealth and beyond. If you prefer research, our faculty engage undergraduate and graduate students in their ground-breaking projects, which are funded by agencies such as the National Institutes of Health, the National Science Foundation, and the Office of Naval Research.

Graduate degrees

The College offers nine master's and four PhD programs. Six accelerated BS/MS programs provide motivated students with the option of completing both degrees in five years.

My UMassD education gave me the opportunity to learn, understand, and test myself. Working on team projects at UMassD, especially my senior design project, is a tremendous help in my current position. At work, I am a member of a team tasked with building a high school – knowing how to work in a group is key.”

College of Engineering

Undergraduate programs in Bioengineering, Civil, Computer, Electrical, and Mechanical Engineering are accredited by the Engineering Accreditation Commission of ABET Inc. The undergraduate Computer Science program is accredited by the Computing Accreditation Commission of ABET Inc.

The College of Nursing & Health Sciences offers the university's two professional health science degrees—Nursing and Medical Laboratory Science. Students in both majors will begin taking health science courses during their first year. Our rigorous curriculum and diverse clinical and mentorship experiences provide you with the knowledge, skills, and critical-thinking abilities essential for success in your health care career.

College of Nursing & Health Sciences

Our faculty are nurse scientists and experienced clinical practitioners who work closely with undergraduates in and out of the classroom. You may be involved in a research project, attend and present at professional conferences, and contribute to scholarly publications.

MLS students learn to analyze and provide valuable information to the health care team using a patient-centered approach that is similar to a medical school model.

The Medical Laboratory Science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

www.ccnaccreditation.org

The bachelor's and master's degree programs in nursing and Doctor of Nursing Practice program at UMass Dartmouth are accredited by the Commission on Collegiate Nursing Education.

98%

NCLEX pass rate for 2018 graduates

100%

Job placement rate for 2018 Medical Laboratory Science graduates

You will practice your nursing skills in our state-of-the art Simulation Center and teaching labs. You will develop confidence, learn teamwork skills, and think on your feet.

Invent your future

UMass Dartmouth has close relationships with clinical sites around the region, the state, and beyond. Outside of your classes and clinical work, the Student Nurses Association, the Student Association for Medical Laboratory Science, and the Global Health Collaborative can help you build skills, make professional connections, and contribute to the broader community.

Graduate degrees

MS in Nursing (online)
Doctor of Nursing Practice (DNP)
PhD in Nursing

Contribute to a healthier community

The nursing program gave me the resources I needed to pass the NCLEX on my first try. I knew I was well prepared based on the education and experiences I had. The student exchange program in Portugal helped me develop skills in culturally competent care. These skills have benefited me as a nurse in the community."

Whether you have your sights set on being the next Groening, Van Gogh, Disney, Gaga, or an art or music teacher, the College of Visual & Performing Arts (CVPA) will help you develop and showcase your talent. We are a tight-knit community of artists, scholars, and musicians working together to inspire and nurture creativity.

As a CVPA student, you'll benefit from a university education that broadens your options for success in the arts. Our students earn a BFA or a BA degree, and are recruited locally, regionally, and nationally for their technical knowledge, preparedness, and imaginative problem-solving abilities. Your creativity is a highly valued skill.

Institute of Contemporary Art Boston

Our new Honors College provides a vibrant and innovative learning environment that engages and challenges academically talented students. We offer our Honors students transformational learning experiences, both in the classroom and through extracurricular activities.

Honors students have published work in academic journals for the National Institutes of Health as well as the National Collegiate Honors Council's *Journal of Undergraduate Research and Creative Activity*, American Association of Critical-Care Nurses' *American Journal of Critical Care*, and Hogrefe Publishing's *Journal of Individual Differences*.

Honors College

Students who graduate from the Honors College are competitive in professional employment and academia. The college fosters a spirit of regional, national, and global community responsibility.

- Sample classes:
- Mind/Machine: an interdisciplinary study of artificial intelligence
 - Flight from the Reich: Austrian Jews and the Holocaust accompanied by a field trip
 - The U.S. Civil Rights Movement with an alternative spring break trip to Alabama

Invent your future

Our Honors College offers a vibrant educational community that provides physical space for living and learning. In addition, you will:

- engage in exciting and innovative research with top faculty
- enjoy smaller and more engaging classes
- graduate a Commonwealth Scholar, a statewide recognition
- register early for classes so you can plan ahead

You can assume leadership roles in the Honors Student Council, interact with faculty to further develop your professional and research skills, and participate in educational and social extracurricular activities. You'll enjoy field trips to sites like Six Flags, art museums, and alternative spring breaks.

The Honors program pushes you to do your best and provides so many connections."

UMass Dartmouth's newest residence hall (opening in fall 2020) will be the most modern living facility on campus. Split into two main residential buildings with a state-of-the-art dining facility as a connector, the beautifully designed community will house 1,210 students in fully-furnished single and double occupancy rooms.

We offer traditional residence hall suites, apartments, townhouses, and living learning communities—and we guarantee you will have housing for all four years.

In the new first-year residence halls, students will live in communities with individual lounge and study spaces on each floor.

The community common areas are intentionally designed for academic and social success with multiple computer lounges, makerspaces, performance practice areas, and classrooms. Additionally, the new community will feature plenty of outdoor gathering space with seating.

Large lounges in each building will feature kitchen areas to promote independent living, which are perfect for satisfying late-night cravings without the need to leave the building. There are study areas and access to high-speed Wi-Fi throughout the entire community, plus free laundry with an app to remotely monitor your laundry's progress.

Centrally located between the residential areas will be a massive dining hall with seating for 800. The dining area is based around a marketplace concept, serving cuisine from around the world along with vegetarian and vegan options.

Living & dining

UMass Dartmouth offers 12 dining options on campus—from our Marketplace serving a variety of meals to our cafés, on-the-go carts, and late-night dining.

Application requirements

- Complete the Common Application, or UMassD's online application
- \$60 non-refundable application fee
- Official high school transcript, including 17 units of college prep courses
- Official result of your SAT (math and critical reading scores) or ACT test
- UMassD is test optional for a number of academic programs (See www.umassd.edu/undergraduate/test-optional for details)
- A personal essay
- One letter of recommendation (optional, but recommended for highly competitive academic programs)

Visual Arts applicants (excluding art history) must submit a portfolio for review in person or electronically through SlideRoom at umassd.slideroom.com.

If you don't have a portfolio, we have a special program for you. Visit umassd.edu/cvpa/portfoliodeferred.

Music applicants must contact the Music Department at **508.999.8568** to schedule an in-person audition and music theory assessment test.

■ umassd.edu/apply

How to apply

Important deadlines

- October 1 – Free Application for Federal Student Aid (FAFSA) is available for completion.
- November 15 – Early Action application deadline. You'll be notified in December.
- Biology, engineering, and nursing are highly competitive programs; applicants are encouraged to apply early.
- Regular Decision applications are reviewed once they are complete, and decisions are made as soon as possible.
- February 1 – Nursing applicants' priority application deadline.
- March 1 – Priority deadline for admissions applications and for filing the FAFSA.

Alternative admissions

Students who have completed high school or the equivalent, and whose academic performance may not demonstrate readiness for university-level work, may be eligible for admission through College Now or START.

For more information, visit umassd.edu/collegenow.

Transfer students

We work to maximize the transfer credits from your previous coursework, and we have formal agreements with all Massachusetts state public community colleges, as well as with the Community College of Rhode Island, Dean College, and Quincy College. These agreements provide qualified students with guidance about pursuing a bachelor's degree along with expedited admission to UMass Dartmouth.

To learn more about transferring, visit umassd.edu/transfer.

Invest in your future

UMass Dartmouth provides a private college educational experience and a public university value. In fact, 84 percent of our undergraduates who applied for financial aid received it.

You'll be pleased to know that UMassD is ranked as a "best value" Massachusetts college, for both in-state and out-of-state students, according to *Payscale*.

Need help paying for college?

Scholarships, grants, loans, and work study are available, and our experienced staff can guide you through this process.

Contact our Financial Aid Office, or visit umassd.edu/financialaid.
