

New Features & Enhancements

- 12C has a new user interface (UI) design which is cleaner looking & more compatible with other Oracle products

11G

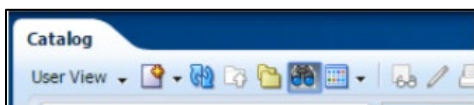

12C

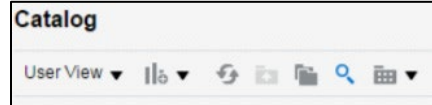

- There is a slight difference between page/catalog icons, 12C is cleaner with fewer graphics

11G

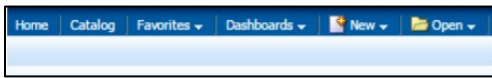

12C

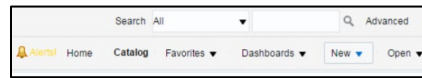

OBIEE 12C Upgrade Go-Live Communication

- 12C has muted colors with no graphics for New & Open

11G

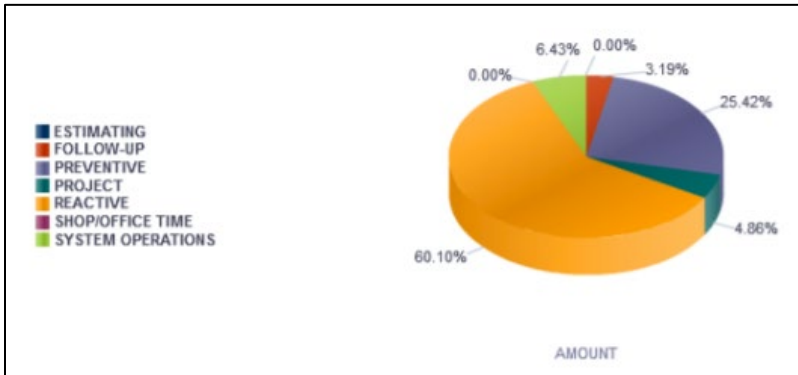

12C

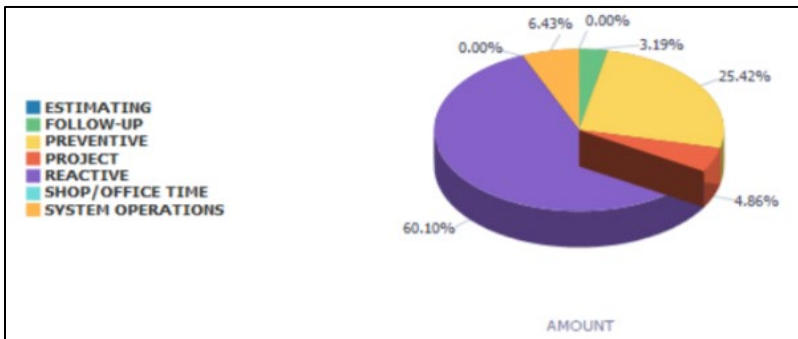

- 12C has simpler, flat graphics with overall improved renderings

11G

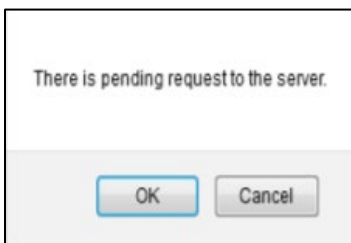

12C

- Version 12C no longer has a “There is pending request to the server” pop-up confirmation when there is a pending dashboard request. Though the request has been made, there is no notification.

FAQs

Q: What user name and password do I use to log into 12C?

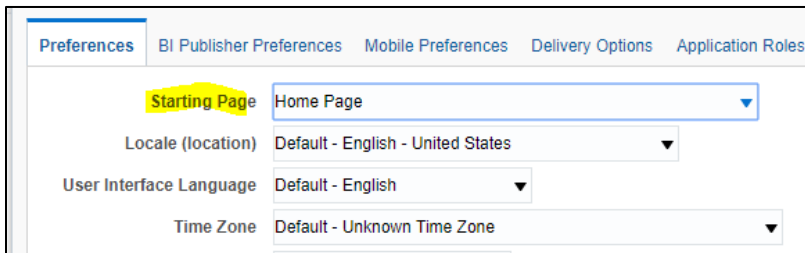

A: Users will use their SSO log-in and password to log into 12C.

Q: Will my existing bookmarks work?

A: No, they will not. The 12C environment will have a new link that will be available at go-live.

Q: Why do I see the Home Page instead of my preferred dashboard?

A: Set a preferred default by clicking on “My Account” under your name in the upper right hand corner and choosing your starting page.

Preference	Value
Starting Page	Home Page
Locale (location)	Default - English - United States
User Interface Language	Default - English
Time Zone	Default - Unknown Time Zone

Q: Do I need to set my preferred time zone?

A: No, time zones will automatically set. Adjusting them will cause issues with datetimes in reports.

Q: What if I see issues with the information on a dashboard?

A: Through February 15th we will be in a heightened issue review period. Issues should be sent to uits.summit.upgrade@umassp.edu. After this date, please follow your standard CSR process.

Q: What if I identify content missing from 11G?

A: Through February 15th we will be in a heightened issue review period. Please submit these instances to uits.summit.upgrade@umassp.edu. After this date, please follow your standard CSR process.

Known Issues

- There is 1 known issue to report in the Finance area. This issue has been escalated to Oracle. When navigating to a hidden dashboard page the other pages in the dashboard are now visible where they were hidden in 11. Users need to continue to use the bread crumbs to navigate back to the previous page rather than clicking on the tab as the tabs hold prompts that may not exist on the Summary page therefore changing the results.

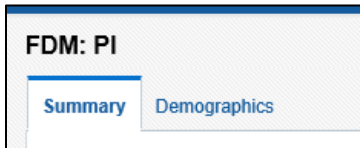

11G

No tabs are presented

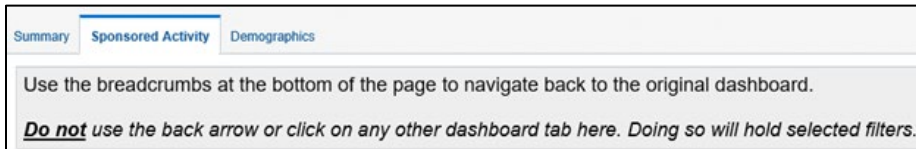

12C

Visible tabs before navigation

Visible tabs after navigation

The above message has been added to the pages to indicate that users need to use the bread crumbs to navigate back to the previous page.

Enhancements for OBI Developers

- 12C has changed the Settings / Properties icon to a gear

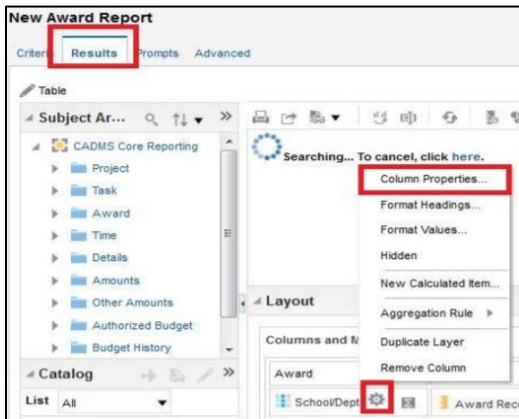

- The Hide a Column feature has been replaced with “Exclude column” in the right click menu

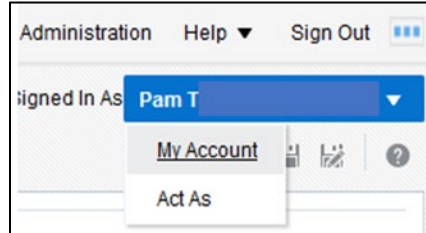

New Award Report

School/Dept	Award Recon Category	Award
DAPER	All Zeros	XAAEC
DAPER	All Zeros	XAAKH
DAPE	School/Dept	Sort Column
DAPER	All Zeros	Exclude column
DAPER	All Zeros	Move Column
DAPER	All Zeros	XEAHT

- Column properties can now be modified from the results tab in addition to the criteria tab

- It is preferred that report writers start on the Criteria tab rather than the Results tab. In order to set this preference;
 - Click on down arrow next to your login name to access My Account.

- Then select the option to Start on the Criteria tab as highlighted below.
