

PSM Program Checklist

The PSM program requires a minimum of **34** credit hours. Students are required to take two science core courses (6 credits), 4 science electives (12 credits), 1 policy core course (3 credits), and 2 elective plus courses (6 credits.) In addition, students choose an additional 2 courses (6 credits minimum) appropriate to a selected area of concentration. Completion of a 1 semester internship with a 1 credit reflection is required. Full-time PSM students normally complete their degree requirements in four semesters. The student must achieve an overall average of 3.0 in the PSM degree program. Part-time students are encouraged to take two courses per semester.

Science Core Courses

An average GPA of 3.0 is required in the core courses with B- as the minimum acceptable grade.
