Green Fee Request Form

The primary purpose of the Green Fee is to develop a pool of financial resources to be used "for campus-based programs related to sustainability, campus infrastructure improvements, and student research projects related to sustainability."

Examples of projects that may be funded by the Green Fee include Water Filling Stations, the Living Classroom, campus recycling, bike-share, community gardens, and the campus trail development. This fund is not intended to support administrative fees nor staffing for any office. The funding is intended to be exclusively used on the UMass Dartmouth campus (including the Law School, ATMC, and SMAST). These funds are intended to be used for the enjoyment of student life as it relates to issues of sustainability.
